Mr. Robert Borruso
[REDACTED]
[REDACTED]

Dear Mr. Borruso,

We appreciate the opportunity to be of service to you. Ford Motor Company has licensed us with their entire production database of North American-built vehicles from 1967-1973. You made inquiry about how many 1967 Mustang Fastbacks were made with particular features. We have researched the question you raised and report the following to you:

There was one 1967 Fastback Mustang produced with a GT 390-4V engine and four-speed transmission that was painted Clearwater Aqua with an aqua décor interior and equipped with the GT equipment group, courtesy light group, power steering, air conditioner, and AM/8-track stereo radio. It was serial number 7R02S114 [REDACTED].

I hope this information proves valuable to you.
